

Before Death Kisses - Untamed Alternative Rock from Eastern Switzerland.

Since the beginning of 2024 we have been combining elements of punk, metal, rock and grunge to create a raw, energetic and multi-faceted sound.

Our music lives from raw emotions and our songs tell stories from life - raw, honest and touching.

With our first demos 'Blindspots' and 'Big Game', released in late 2024 and early 2025, we give you a taste of what's to come.

Before Death Kisses is ready to leave a lasting impression and show what we're made of live: raw, honest and full of energy.
